English

Hindi

### Certificates

#### Full Stack developer Intern 📍

Worked as a Full Stack Developer Intern at EngineersWorld for 2 months, contributing to industry-level projects and gaining hands-on experience in real-world development.

### Projects

#### Amazon Clone, Product listings, navigation bar, responsive design

A static clone of Amazon's homepage replicating layout, navigation, and styling.

**Engineers World Website,** *Developed the official website for Engineers World, showcasing company services, team, projects, and contact information.* [↗](#)  
Fully responsive design, dynamic content management, smooth UI/UX, integrated contact forms, optimized performance

**Trend - Reserve,** *Designed and developed a modern web application for booking trendy clothes with real-time availability, user authentication, and booking management.*

- **Features:** User login/signup, product browsing, booking system, admin dashboard, and mobile responsiveness
- **Role:** Full Stack Developer
- **Outcome:** Streamlined clothing reservations with a smooth user experience and efficient backend handling

**Personal Portfolio Website,** *Designed and built a responsive portfolio website to showcase projects, skills, and work experience. It highlights my journey as a Full Stack Developer with interactive animations and clean UI.* [↗](#)

- **Features:** Responsive layout, project gallery, contact form, smooth navigation, and dark/light mode toggle
- **Role:** UI/UX Designer & Full Stack Developer
- **Outcome:** Created a professional online presence to attract recruiters and collaborators
